

Free/Low Cost Feline Spay/Neuter Clinic

9th Life Hawaii holds monthly spay/neuter clinics. We ask for a minimum \$35.00 donation but *ALWAYS* free if a hardship. We sterilize all cats: pets, feral, homeless, even those that just showed up at your door for a meal.

However, we do **NOT** sterilize obviously pregnant cats as we do not kill the kittens.

Print out the form and mail it to:

**9th Life Hawaii
Box 476
Makawao, HI 96768**

Mahalo for helping Maui's kitties.

If you have a question, please contact us at:

SURGICAL CONSENT/LIABILITY RELEASE

Owner's Name/Responsible Party _____ Home Ph _____
 Mailing Address _____ City _____ Zip _____ Cell _____
 Street Address _____ City _____ Zip _____
 Email _____ Alt Ph _____
 Cat's name _____ Color/Description _____ Age _____ Sex _____

Please check the following elective procedures, if wanted. Use back to add more cats.

MORE PETS DIE FROM NOT BEING IDENTIFIED THAN FROM ALL INFECTIOUS DISEASES COMBINED.

Donation for spay/neuter alone: **minimum \$35.00 per cat donation** suggested. More would be helpful.

We suggest a minimum donation of \$35.00 for each cat. Mail your donation with this form. PLEASE donate what you can afford. If a true hardship, our clinics are ALWAYS FREE. However, we need donations to continue our spay/neuter clinics and to provide sanctuary for the more than 275 homeless and disabled cats at our sanctuary. Please call 573-3365 if you have any questions.

Micro-Chip **\$45.00 per cat includes spay/neuter AND microchip. No annual registration fee for this chip. Provides lifetime-permanent identification.** ENCLOSE A SELF-ADDRESSED STAMPED ENVELOPE SO WE CAN MAIL YOU THE MICROCHIP REGISTRATION FORM AFTER SURGERY..

Notch: **Free** V-cut notch in top of cat's ear to provide sight identification that cat has been spayed or neutered. (Mandatory for feral cats, you must label NO NOTCH if using a trap for a tame cat and don't want the ear notched).

Vaccination: \$10.00 ea. cat - 4-Way Vax protects against Rhinotracheitis, Calici, Chlamydia and Panleukopenia (2 shots 30 days apart)

All cats are tattooed in cat's ear at No Charge. Tattoos are mandatory (No exceptions) at our clinics because they save lives. Tattoo is **recognized by Maui Humane Society and vets for pet identification. Identification means your cat can be returned to you!** However, tattoos may fade over time. **WE RECOMMEND MICROCHIPS. SEE ABOVE.**

I, being responsible for the above-described animal(s), have the authority to grant you my consent to receive, transport this animal to the vet, have medicine prescribed for and/or to have a vet operate upon my pet and hereby authorize the performance of a spay/neuter procedure. I hereby also authorize the use of such anesthetics as deemed advisable. I agree to indemnify and hold 9th Life Hawaii, the veterinarians, vet techs and volunteers harmless from and against any and all liability arising out of the procedures referred to above. I understand there are risks associated with all surgical procedures and the use of anesthesia and drugs. I understand this clinic will not spay any obviously pregnant cat. I understand and consent to the above procedures.

TO BE ELIGIBLE FOR THE CLINIC RETURN THIS SLIP & YOUR CHECK IMMEDIATELY TO

9th LIFE HAWAII – P.O. BOX 476 – MAKAWAO, HI 96768

SURGERY WILL BE CONFIRMED WHEN WE RECEIVE THIS FORM WITH YOUR DONATION

.READ THESE ENTIRE INSTRUCTIONS – TEAR OFF AND KEEP THIS PART FOR YOUR INFORMATION

YOU WILL BE ADVISED (one to two days before scheduled clinic) OF DATE AND DROP OFF TIME (usually between 7-9 A.M.) TO BRING THE CAT TO A CENTRAL PICKUP LOCATION. Cats will be transported by volunteers to the sanctuary for surgery and returned to that location on the afternoon of the same day. You will be called after the surgery is completed and advised of exact pick up time. WE DO NOT NORMALLY BOARD CATS, SO IF YOU DO NOT PICK UP YOUR CAT A \$50.00 PER DAY FEE WILL BE CHARGED.

YOU MUST COMPLY WITH THE FOLLOWING PRE-CLINIC CHECKLIST:

- Cat cannot be obviously pregnant or show symptoms of Upper Respiratory Infection (URI), such as runny nose and/or eyes.
- Adult Cats cannot have food within eight hours of surgery, water is okay. Kittens under 3 months **should** eat up to 4 hours before
- Cats must be brought in individual, **standard** carriers or traps, **LARGE ENOUGH FOR THE CAT TO FULLY EXTEND ITSELF. ONE CAT PER CARRIER. NO CARDBOARD CARRIERS, NO MAKESHIFT CARRIERS.....CATS WILL NOT BE PICKED UP IN MAKESHIFT, HOMEMADE CARRIERS. NO EXCEPTIONS**
- Tape label on carrier with your name & all your contact phone numbers for clinic day and advise if your cat is a male or female on the label.
- Please label total number of carriers for multiple cats. (example: 1 of 3 cats, 2 of 3 cats and 3 of 3 cats).
- Please place a towel or puppy pad or human diaper inside the carrier or trap in case your cat pees. It will keep him pretty dry. Please **completely COVER** traps with a towel/blanket for all cats in traps
- The tattoo number will be included on the post surgery instruction sheet & taped on the carrier. If not visible, call us for the tattoo number.
