MORE PETS DIE FROM NOT BEING IDENTIFIED THAN FROM ALL INFECTIOUS DISEASES COMBINED.

☐ Micro-Chip. \$45.00 per cat includes spay/neuter **AND** microchip. No annual registration fee for this chip. Provides **permanent/lifetime** identification. **ENCLOSE A SELF-ADDRESSED STAMPED ENVELOPE SO WE CAN MAIL YOU THE MICROCHIP REGISTRATION FORM AFTER SURGERY.**

☐ Donation for spay/neuter alone: **minimum \$35.00 per cat donation requested.** This is a minimum. More would be helpful.

☐ Tattoo. Free tattoo in cat's ear, recognized by Maui Humane Society and veterinarians for pet identification. **Tattoos fade over time. WE RECOMMEND MICROCHIPS.** Tattooist may not be available. **We always need experienced tattooists to volunteer. Call if you can help.**

☐ Notch. Free V-cut notch in top of cat's ear to provide sight identification that cat has been spayed or neutered. (Mandatory for feral cats, you must label NO NOTCH if using a trap and don't want the ear notched).

I, being responsible for the above-described animal(s), have the authority to grant you my consent to receive, transport this animal to the vet, have medicine prescribed for and/or to have a vet operate upon my pet and hereby authorize the performance of a spay/neuter procedure. I hereby also authorize the use of such anesthetics as deemed advisable. I agree to indemnify and hold 9th Life Hawaii, the veterinarians, vet techs and volunteers harmless from and against any and all liability arising out of the procedures referred to above. I understand there are risks associated with all surgical procedures and the use of anesthesia and drugs. I understand this clinic will not spay any obviously pregnant cat. I understand and consent to the above procedures.
